

Bringing the science of NASA to life!

The Works SciDome Academy

The SciDome Academy returns for another year of out-of-this world programming for 3rd-8th grade educators in east central Ohio! Engage your students in the future of math and science through this exploration of Earth and Space science, cutting edge research, and immersive visual content. All participants will receive classroom resources and materials, collaborate with their cohort to develop relevant applications for their students, and connect with NASA education resources and scientists.

Space is limited to 15 educators. Apply today!

The Works is proud to offer unique and exciting professional development opportunities for educators **free of charge**. Stipends may be available, contact The Works for more information.

To apply, please visit <https://tinyurl.com/TheWorksSciDomeAcademy> and submit a letter of support from school administration to Education@attheworks.org.
