EDUCATION PROGRAMS

**FORCES & MOTION
POLYMERS
SCIENCE OF GLASS
WEATHER**

Forces and Motion

Get hands-on with forces and motion. Discover that all forces are a push or a pull. Learn that forces cause movement and changes in those forces change the movement of objects.

Polymers

Discover, sort, and compare different types of polymers and their properties. Learn about natural and synthetic materials and how objects/materials change when mixed together.

Science of Glass

Follow the transition from sand to glass and learn how the movement of molecules within matter makes this possible. Discover the unique properties of glass and the many different ways it is used throughout our lives. Create a small art piece to take home.

Weather

Learn the different types of weather and make weather observations. Discover how changes in energy, such as sunlight, shape weather patterns and the impact weather has on our lives.
