**EDUCATION EXPERIENCES**

### SCIDOME AT THE WORKS

*Starry Night* in the planetarium reinvents astronomy and space science education. From basic sky observations to exploring distant galaxies, these programs bring scientific accuracy and realistic detail together in an immersive experience.

*Layered Earth*’s three-dimensional world envisions our Earth as a whole system. Explore tectonic plate boundaries, mountain ranges, volcanoes, earthquakes, biomes, and much more. The Layered Earth includes high resolution surface topography and satellite/aerial surface imagery.

*Zygote Body* is a powerful and intuitive three-dimensional interactive simulation of the human body. Get immersed in the human body as each system can be highlighted to view and dissect anatomical components.

### GLASS AT THE WORKS

*Glassblowing* demonstrations take creativity to a whole new level in this exploration of materials science and artistic technique. Join our glass artists for a unique insight into how glass works at a molecular level as they create a work of art.

### HISTORY AT THE WORKS

*Explore History* in this guided tour of exhibits that challenges students to make global connections to local events. Get immersed in the past to understand the present and make predictions about the future.

*NOTE: Full program standards and descriptions available for each program. High School programs are designed for 20-60 students and last 30-45 minutes.*
EDUCATION EXPERIENCES

9 - 12TH GRADES

What is included?
Per Student Price: $5

• Chosen Education Experience
• Education Staff Support
• Free Admission for Teachers

How do I schedule?
What do I need to know?

• Grade level(s) of the students
• Total number of students
• Total number of teachers
• Top 3 dates you would like to attend
• Preferred arrival and departure times
• Chosen educational experience(s)
• YOUR Name, Phone number, and Email address
• SCHOOL Name, Phone number, and Address

We are more than a museum!

Choose from the following experiences:
See program descriptions for full details:

• SciDome Starry Night
• SciDome Layered Earth
• SciDome Zygote Body
• Explore History: Local Connections
• Glassblowing Demonstrations

Please Note: Museum Exploration is NOT included in discounted experiences for High Schools. Contact the Education Team to customize your museum visit!
